2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

It is the mission of Santa Teresa High School to provide a safe and caring learning environment where students achieve the academic, aesthetic, personal, and social development required to continue learning and pursuing post-secondary education, to compete in a changing job market, and to participate in a multicultural, democratic society. Santa Teresa High School models and practices the "BE A SainT" slogan. It describes the critical attributes of students, faculty, and staff and how we envision ourselves in the greater community. As Saints, we have Respect, have the Ability to achieve, and a Can-do attitude.

Santa Teresa High School is home to nearly 2230 amazing students who mature into fantastic young adults due to academic growth and personal achievement. With the assistance of almost 150 staff members, the students at Santa Teresa High School have various academic and extra-curricular opportunities that make an excellent high school experience. Santa Teresa High School offers 24 Advanced Placement courses (American Government, Art History, Biology, Calculus AB, Calculus BC, Chemistry, Computer Science A, English Language, English Literature, Environmental Science, French Language, Macro Economics, Physics 1 and 2, Principles of Computer Science, Psychology, Spanish Language, Spanish Literature, Statistics, Studio Art: 2D, Studio Art: Drawing and Painting, US History, and World History), a variety of World Languages (American Sign Language, French, Spanish, and Vietnamese), a variety of Performing Arts (Concert Band, Drama, Film Studies, Guitar, Jazz Ensemble, Marching Band, Musical Theater, Technical Theater, and Wind Ensemble), a variety of Visual Arts (Art, Crafts, Digital Photography, Drawing and Painting, and Multimedia) and two Career Technical Education pathways: Computer Science and Multimedia. In addition, Santa Teresa High School boasts an award-winning Leadership program, nearly three dozen different student clubs, an award-winning International Relations Club, an award-winning Marching Band, an award-winning Robotics program, and an award-winning Spirit program. For our students who need a little extra help, Santa Teresa High School offers advisory and tutorials during the week. In addition, a plethora of tutoring programs is available throughout the

week. We also have two school social workers that oversee our Mental Health and Wellness Center. Athletically, Santa Teresa High School is one of the few schools with nearly all of the teams competing in the highest division and routinely competing in the various CCS tournaments.

Santa Teresa High School is a tremendously safe campus due to the vigilance of all students and staff and the support and involvement of our families. Drugs and weapons are not a part of the ST culture. Also, Santa Teresa High School is blessed with tremendous parent and guardian support. Santa Teresa High School would not enjoy success without the continued support of the Santa Teresa Parent Teacher Association (ST PTO), the Santa Teresa Athletic Booster Club (STABC), the Santa Teresa Music and Arts Association (STMAA), the African American Student Advocates (AASA), and the Latino Parent Coalition (LPC).

Welcome to the home of the Saints!

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Santa Teresa High School was opened in 1974. Although the main school campus was constructed in 1967, the school facilities are maintained in a good state of repair. The facilities are clean, safe, and adequate for providing a quality education for all students. All classrooms provide adequate space for teaching and learning. Each building also provides an office for teachers to use during their prep periods. Exterior campus grounds feature large expanses of lawn, dotted with trees and other shrubbery. Athletic fields are adequate for physical education classes. The football field, track and stadium were renovated to a waterless turf field, rubberized track and new aluminum stands with a press box and ticket booth. At night the campus is well lit with under eave and pole lighting. All student and almost all staff restrooms are newly renovated. The floors and walls of the student restrooms are tiled, as are the floors and most of the walls in the staff restrooms. Santa Teresa High School is extremely suitable as a learning environment. Lighting in all areas is adequate for instruction, and there is a suitable HVAC system in place. The fire alarm system has been refurbished with a new control panel. The theater was completely renovated and Santa Teresa has a very good technology infrastructure. Thanks to our community for passing the Measure- E Bond, we built a new multi-purpose building and modernized the 200 building and both of the main student restrooms. The new multi-purpose building was completed in 2010 and it has two regular classrooms with 21st century teaching units and SMART boards. This building has a large 5000 square foot room that will be used for testing, presentations, and large group meetings. The multi-purpose building also includes additional restrooms for students and staff. The 200 building was renovated, transforming the original classrooms into 21st century teaching units, complete with greater natural light, SMART boards, tackable wall space, and shared iPad carts. The Counseling offices were relocated to a wing of the original campus library and new offices were built. The bookroom, originally in the 100 building was moved to the 200 building and designed to eventually accommodate student tablets and e-readers rather than bulky textbooks. August 2015, stadium lights were installed for Friday Night football games, marching band practices, and men and women soccer games. A concession stand and restroom facility was also installed at the stadium in the Summer/Fall of 2017. Hardscape and landscape projects were completed during the 2017-18 school year, converting the wasted space at the entrance of the Santa Teresa Blvd parking lot to a welcoming, lit plaza; replacing the bricks around the 500 buildings with drought tolerant plants; asphaltting the space to the north of the 600 building; installing drought tolerant plants around the 600 building; and reseeding the grass area in the center of the campus. A new track and football field were installed at the stadium in Summer 2019. A new soccer field was installed the summer 2021. There are also plans to begin construction on a new building that will house additional science classrooms during the 2021-2022 school year.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parent Community Involvement Specialist: Elvin Jackson (408) 347-6233

To ensure ongoing communication, Santa Teresa utilizes Schoolloop to provide parents with immediate access to their students' grades, attendance, school programs, and activities as well as to facilitate parent communication with staff members. Parent and community participation is essential to student achievement and Santa Teresa High School provides a number of parent organizations. The school has an active School Site Council, a music and arts booster club (Santa Teresa Music and Arts Association), an athletics booster club (Santa Teresa Athletic Boosters Club), a parent/teacher association (Santa Teresa Parent Teacher Organization), and parent advocacy groups, (Latino Parent Coalition and African American Student Advocates). Santa Teresa High School parents, guardians, and community members selflessly devote their time to assist with the first day of school, test preparation, school activities, extra curricular programs, and teams and clubs. To support parents, Santa Teresa hosts a variety of parent information nights, including, but not limited to Financial Aid Night, Freshman Parent Orientation, grade level workshops, college information, Advanced Placement information nights, and at-risk forums.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

2022-23 School Safety Plan

Santa Teresa has a very detailed, comprehensive safety plan that outlines protocols, systems, and procedures in the event of any/all emergencies. This plan also contains the yearly safety goals as determined by the students, staff, and parents. The Safety Plan is developed by the Santa Teresa Safety Committee and reviewed by the School Site Council and District Safety Committee before it is presented to the East Side Union High School District Board of Trustees for adoption. The Safety Plan and drill procedures are reviewed during the year with all staff. Safety alerts are shared with all staff as needed throughout the school year. In addition, all required drills are calendared and completed and the results are communicated to all staff. Santa Teresa's campus is supervised by administration, advisors, and campus monitor.

The Santa Teresa High School Site Safety Plan is in compliance with district policies that govern all school sites in developing, implementing a comprehensive, enforceable, and continuous living document that deals with Behavior policy, rules and regulations, Dress code, Tardy, Attendance, Referral process, Multi-service team, Safety team and Protocols for safety/emergency drills.

We have partnerships with community agencies, City of San Jose, San Jose Police Department, and other Safety and Mental Health agencies and groups that offer support services.

Professional Development

Professional development opportunities for staff members are multifaceted and clearly and consistently linked to the state's standards, district goals, the school's core values, and occur during the school year and summer break. Our school has a coherent, comprehensive plan for professional development that is data driven and directly linked to teaching and learning. Not only do teachers and staff participate in staff development opportunities at the school, but they also take advantage of multiple professional development opportunities at the District and throughout the country. In addition, many teachers take professional growth classes at local colleges and universities and attend workshops offered by the Santa Clara County Office of Education. BTSA and new teacher orientation meetings support new instructors. The school has created and successfully implemented a collaboration model for professional development. School wide and departmental meetings are held regularly so that teachers can continue to work on professional development to support school-wide efforts to align curriculum with rigorous state content standards as well as to provide instructional support for literacy and differentiation to assure the achievement of all students.

To ensure a cycle of continuous improvement, professional development is personalized to address the needs of all subject-area teachers, staff, and administrators. Not only do professional development activities for teachers reflect a best practices approach, but they also align with the California Standards for the Teaching Profession. Teachers and staff participate in professional development that is aligned with their individual fields and district plans at multiple levels. At the school level, professional development is structured to have a generalized focus (e.g., higher order thinking, teaching, and learning, Common Core State Standards, etc.), and specific facets of the professional development program (e.g., specific instructional strategies) are personalized to address the specific content area dynamics and needs. The district also offers a multitude of professional development opportunities to broaden teachers' knowledge, enhance their classroom management skills, and augment their repertoire of best practices instructional strategies.

This table displays the number of school days dedicated to staff development and continuous improvement.
